## Sheriff's Report

NARRATIVE: On July 13, 2012 at 1534 Hours I was requested to make phone contact with the Complainant, Deborah Sabara, at her place of employment in Interlachen NY.

I contacted Deborah who advised that her daughter (Minor Child) is visiting her Father, Darrel Trulson at 30619 Wallmark Lake Dr. Chisago City. She stated that she had spoken with (Minor Child) who told her that she is scared and wants to come home to New York. The reason is that her Father "**creeps her out**" by **lying on top of her** on the couch. Deborah requested a welfare check.

I responded to the address and was greeted at the door by Darrel Trulson. I asked if (Minor Child) was home, he stated that she was, and invited me into the residence; I noted the house was neat and clean. He called for (Minor Child) and she came to the entry way. I asked Darrel if it was OK to step outside with (Minor Child) so that we could speak in private, he stated that was fine.

(Minor Child) and I stepped outside. Once outside, I explained the reason for my visit. I asked her to tell me why she was scared. She stated she wasn't so much scared as she **was creeped out**. I asked her to tell me why she was creeped out, she stated that when she lays down on the couch, her dad comes over and lays down on top of her. I asked what she thought when he does this. She stated that she thinks he is just playing around but that it creeps her out. I asked if she was afraid of getting hurt or if she thought he would hurt her. She stated that she was not afraid of that. I asked if she was homesick and she stated she was. I explained that I would not be able to help her get home to her Mother, that her Mother would have to work on that in New York, she understood this. I further explained that if she felt in danger to call 9-1-1.

I then had Darrel step out and (Minor Child) step back into house. I asked Darrel if he lies down on top of (Minor Child) when she is on the couch, he stated that he does do this and does it because that's how he plays with the kids. I explained to him how (Minor Child) feels about this, that she is a 16 year old girl going from childhood to adulthood and that this act really bothers her and suggested that he not do that anymore. He stated that he understands and would not do this anymore.

I cleared the residence and called the complainant back and advised her of my findings.

## (Sheriff's Report, Continued)

### NARRATIVE

On 7-13-2012 myself and Deputy Mark Stovern went to the Trulson residence on Wallmark Lake Dr. Deputy Stovern talked to the Mother of (Minor Child). He stated that (Minor Child) is at her Father's residence for summer visitation from New York.

Deputy Stovern talked with (Minor Child) outside the residence while I stayed inside the residence with Darrel Trulson. I advised him that we received a call from Deborah Sabara, (Minor Child's) Mother, stating that her daughter was complaining of feeling uncomfortable with staying at her father's residence. Sabara reported that Trulson "jumped on" (Minor Child) while she was lying on the couch. He told me that he was wrestling around with his daughter and nothing immoral or illegal took place.

Deputy Stovern then talked with Darrel outside the residence and I stayed inside with (Minor Child). She admitted that it was difficult and not very much fun to visit all the way from New York. She does not know anybody here and she is away from her friends.

Deputy Stovern advised we could clear a short while later. See Deputy Stovern's report for complete details. Kris E. Scott.

## Darrel Trulson's Perverted Family Values

Opinion and Political Commentary by Jonathan P. Glassel

Darrel Trulson is a candidate for Chisago County District One Commissioner and Chair of Bob Barrett's Election Committee.

Imagine, if you will Darrel Trulson parading around the house in his underwear in front of his sixteen year old daughter who is visiting from New York and then lying on top of her while she watches TV on the couch, she begs him to get off of her. He refuses.

Then, it seems Darrel develops a sudden dislike for squirrels, live trapping them.

Not for relocation but drowning them with his bare hands in a tub filled with water in his garage.

Perhaps, a perverted psychological message to his daughter saying, "this can happen to you!"

The minor child screams for help, somehow she is able to contact her Mother in New York.

But Darrel will not release the child to go home. Only after the Sheriff is summoned and the child's stepfather screams into the phone at Darrel is the child released to return home.

It is in this light that the elder of Darrel's girls comes forward with great courage to state, in effect that we, the voters of Chisago County cannot put this man, her father into a position of power which will allow him to abuse women and other children.

## Following is a letter from Lauren Trulson Ciambriello

Hello Jon! My name is Lauren Ciambriello, and I am Darrel Trulson's daughter. I have written a letter, and I was hoping you could help me get this word out about my father.

I thank you for your kindness, and understanding. I hope we can do whatever we can to prevent this man from getting into office.

Best, Lauren Trulson Ciambriello

To whom this may concern-

With much thought and contemplation, I have decided to step forward as the eldest daughter to Darrel Trulson, and speak out about how I feel you should NOT vote for Trulson.

My father claims he has family values, and close relationships to his children-

How is it okay for him to claim such family values, when most of my childhood was spent watching him beat his children and claim it was discipline. My sister and I are scarred and traumatized by his emotional incest and inappropriate sexualized contact. You should make one question a priority in this election...why was the Chisago County Sheriff called to Darrel's home during my minor sisters' visit this summer?

I do not approach this subject lightly; I have given this decision to come forward much thought and deliberation. This has nothing to do with politics but everything to do with decency and morals. I have a daughter to whom I am committed to protecting and therefore I will never allow him to have contact with her. I will never let anyone take her innocence away from her, like mine was taken from me.

Is this the type of person you want in office? Sincerely, Lauren Trulson Ciambriello

## A Response from a Trulson Supporter

Dear good people of Chisago County,

It came to my attention last evening by a Mr. Jonathan Glassel in a series of emails that to a reader would appear to be an attempt to sully and taint the good character of Darrel Trulson. I implore all of you who received the same mails to please try and take just one thing about this whole matter, that it just isn't any of our business. In recent years I have seen a shift in our sometimes rabid political climates that many times what is viewed by political opponents and operatives as important are the "gravity of the charges" versus the "weight of the evidence".

After reading a letter written by Darrel Trulson's adult son's Derek and Michael in regard to this private family matter, I realized that there likely is much more going on here between two parents of children than anyone knows, and if any of all of us have gone through the pain and suffering of divorce with children know fully what I am writing about.

I am hoping that all of you will put this private family matter in a place that keeps it private between Darrel Trulson and Deborah Sabara and the children that they share together.

It was said to me over 20 years ago in my own private family divorce matters that "while we are sometimes not married for life, we most surely are parents for life" so for sake of the children "keep the treasure of your children the heck out of it."

Cordially,  
Peter Schaps

## My Response to Peter

Opinion and Political Commentary by Jonathan P. Glassel

As my wife notes, guys like Darrel have prepared answers ready when the cops show up or when he is called out on his inappropriate behavior with his teen age daughter.

No offense, Peter, but based upon prior correspondence, you can barely pen a cohesive

sentence; much less write an understandable paragraph.

As such, you and the Tea Party that you purport to represent are little more than a pervert's mouthpiece when you distribute Trulson's long prepared response.

As more details emerge about the Trulson's marriage, it may come to light that the boys, having been abused for so long, have developed issues of their own.

I would suggest you Google Stockholm Syndrome and adult behavior of abused children.

# Darrel Trulson's Perversion Private Matter or Public Concern?

Opinion and Political Commentary by Jonathan P. Glassel

**See No Evil  
Speak No Evil  
Hear No Evil**

Some 50 years ago, my oldest sister married a pedophile.

At the age of ten, 'his man was like a second father to me.

When my seven year old little sister relayed what she considered to be normal behavior to one of her playmates who subsequently relayed this information to her Mother, the men in the neighborhood, my older brother and his friends grabbed their shotguns and deer rifles and went looking for my child molesting brother-in-law.

They never found him, nor were charges ever filed. The man disappeared and was never heard from again until recently, when his adult children came upon correspondence indicating he was alive and well as of five years ago, which leads to speculation as to the number of children he likely molested in his lifetime.

Fortunately, the Trulson girls

are in therapy and in time will recover from a form of abuse known today as "emotional incest." The next child abused in this manner may not be as lucky.

Along with elected leadership comes the guise of respectability and responsibility, i.e. if you can get several thousand people to vote for you, you must be a cut above the others which places you in a position of authority and power over others.

We have an often unjustified awe of our elected leadership.

Said power often transfers throughout government.

Speeding tickets are dismissed, absconding with county softballs and other behavior unbecoming an elected official is all too often tolerated.

As long as Rick Duncan is our Sheriff, matters like the Trulson

affair will be investigated, however if a politician becomes powerful enough to dispose of our current independent leadership and replaces them with a "far right wing patsy" such matters will be overlooked and covered up.

As a County Commissioner, Trulson can do little to change state law. However, should he advance beyond this stepping stone to a higher office, could a candidate exhibiting perverse traits influence state child molestation laws or place himself in a position of greater power where his acts would inevitably be covered up by his political party?

Perhaps a candidate's character is more important than purported ideology when electing people to local office.

Therefore, in my considered opinion it is appropriate to ask:

**"Would you let Darrel Trulson  
Babysit your Teen-aged Daughter?"**
