

"Real benefits of home ownership may not seem possible in today's market."

My job as a realtor/certified negotiation expert, is to guide you through the purchase/sales process, to counsel you in ways to secure you and your family, the highest level of representation, Insuring sure your privacy and ownership rights are protected, Thats an realtors job. That you receive the level of professional service that can only be realized by representing "one client's at a time".

Hello, I am a realtor; my name is Terry Steindel.

I grew up in Anoka County, attended Anoka Schools, my kids were schooled locally. I have a good reason to take my Real Estate licence seriously. I knew we loved the quaint house, and I obtained a loan on a 1884 house, and being a first time home owner, purchased the house. I knew nothing of home ownership, inspections, appraisals, or mortgages. As a result, my first experience in ownership ended in disaster. I was lacking options, I lost my home and I learn real estate the hard way.

Today;

I have the understanding and patience gained through experience, necessary to guide you through the process and make your home purchase and or sale and make your meaningful experience. I will be happy to answer any questions that you may have and I am confident you will be truly impressed and excited with the results.

Call me for an appointment.
